

RENEWING OUR FUTURE

CARROLL ELECTRIC

Our Mission

Customer satisfaction is Carroll Electric's **number one priority**. Our award winning team sets the industry standard through our **commitment** to offering our customers the finest in quality electrical work, safety standards, and cost efficiency.

Customer satisfaction begins with a **quality team**. Our knowledgeable, experienced electricians provide their expertise to ensure renewable energy projects surpass expectations. Our **award-winning safety record** demonstrates our customer's investment is well protected. Making your renewable energy projects into reality is our privilege. After all, **customer satisfaction** is priceless to Carroll Electric.

How can we be of Service to you?

Our outstanding, **dedicated employees** are ready to install top-quality products at an affordable price. Whether it is residential, commercial, industrial, agricultural, institutional, or tele/data communications, we are ready to respond to your needs and help you reach your goals. **Safety** is an everyday priority and keeps our employees returning home every night and back to take care of you the next day. Our staff of designers are ready to consult with you on any project to meet your needs within your budget. We take **pride** in every job we do. No project is too big or too small.

“Very safety orientated and a very willing company to work with!”

Elexco Inc.

Carroll Electric welcomes the opportunity to be of service to you.

PPC Mission Statement

The mission of PPC, our employee owned holding company, is to provide technically advanced building services, equipment services, and on-site electrical construction (manufacturing) while maintaining a high quality, low cost advanced service delivery system. This Company is directed by Old Testament wisdom and Jesus' example.

MetroPower Vision Statement

The vision of MetroPower (dba Carroll Electric) is to provide pace setting, high quality, electrical service and construction safely for our Customers at a profit that will allow investment in the future. We are dedicated to merit shop principles, high ethical standards, and investing in our people to be all they can be.

“Workmanship by Carroll Electric on-site was on budget and on schedule. The quality of workmanship was exemplary. Supervisors and all personnel conducted themselves in a professional manner on and off the job site. All our experiences with Carroll have been positive and their safety performance was outstanding.”

Ron Magargee, RMT Inc.
